Safe cooking	All Foster cooker hobs are equipped with safety valves. They shut off the gas supply very quickly if the flame accidentally goes out.
Tangential fan	A special ventilation creates a flow of air between the cooking chamber and framework, thereby reducing the temperature of the external surfaces. As consequence, the oven does not expose furniture to temperature shock.
Full glass door	The inside of the oven door constitutes a single smooth glass surface making it practical for cleaning purposes.
Automatic thawing	It is possible to defrost not only setting the time but also alternatively the type and weight of the food.
Self cooking	An intuitive and advanced programming system that allows to recall a wide set of preset recipes and to memorize exclusive ones.
Stop-sol glass finish	The special screening and mirroring treatment of external glass gives the oven an elegant and modern aesthetic. The oven remains dark when not in use, once the illumination is switched on the inside is perfectly visible.
